

RFP ADDENDUM #1

Clarification for Request for Proposal # WPS SMART 2016-01

In Section, Scope of Project:

- Bidders to provide a complete proposal including:
 1. *Pricing and technical description to furnish, install, and maintain a fibre optical cable and related equipment for the network that runs along the route noted. See map. Bidders to specify plans for in ground or aerial lot servicing or a combination of both. Bidder to furnish, install, and maintain all equipment necessary to provide reliable high-speed (1 Gigabit per second) service.*

For clarification: Bidder to furnish, install, and maintain all equipment necessary to give each service address within the Park a physical fibre circuit capable of 1 Gigabit per second transfer speeds, subject to the capacity of the data path to the public internet and the speed of the subscriber's data plan.

- Bidder is Responsible to:
 3. *Provide or arrange for the feed required to light the fibre installed along the route within the Industrial Park.*

For clarification: Provide or arrange for a data path from the fibre network within Industrial Park to the public internet. Please describe the proposed capacity of the data path."
